## A BUSINESS RECCE TO RUSSIA VISITING MOSCOW AND SOCHI 13 – 19 APRIL 2011

You are invited to join us on a business recce visit to Russia.

Grab your share of the business bonanza that is going to be **RUSSIA** in the next 7 years.

A short sharp recession, but thanks to huge reserve funds and a fast oil price recovery, Russia is well ahead of the field and quickly gaining international recognition.

#### Bid winners for :

- Sochi Winter Olympic Games 2014
- Formula 1 Grand Prix 2014 – 2020
- Football World Cup Russia 2018

On these three events alone the Russian Government will invest 60 billion Euros with the private sector trebling that amount.

90% of facilities and infrastructure will have to be built from scratch – with help from the West. Hospitality in terms of hotels, entertainment venues, retail and catering outlets must be provided. Upgraded airports, airline services, high speed rail and road improvements will be essential. Training - both commercial and language. Supply of Consumer goods – Food, Drink, Clothing, Pharmaceuticals and Equipment.

Visitor spend will be colossal at these 3 events.

#### And more huge investments:

Skolkovo – A huge silicon city to be built west of Moscow

Nanotechnology – A state corporation has been formed and very substantial funds invested to make Russia a World leader in the field.

On both of these projects **Russia has openly asked for British** co-operation and joint ventures.

#### And more essential work to be done.

Moscow’s clogged arteries traffic gridlock and metro modernisation – new Mayor Sabyanin welcomes foreign expertise and investment – urgently.

London innovations for the 2012 Olympic Games puts us in a prime position to advise and supply Moscow.

**There is so much more** – infrastructure, upgrades, factory re-equipping, training programmes and consumer satisfaction. And it is not just Moscow – 13 other areas with over 1 million population want to join the surge into the 21<sup>st</sup> century.

#### **BRITISH TRADE AND INDUSTRY CAN SUPPLY!**

BP lead the way with a colossal deal with Rosneft securing their investment in Russia for many years to come.

But it is not just the big firms – SME’s have great opportunities.
